

So long  
Ooh, I've been waiting so long  
Just for someone like you  
To happen along  
And I know  
Ooh, that I've been reborn  
When I think of your smile  
And I hear your song

Well, you make me feel so good  
You make me feel better than I thought I could  
I hope that it's understood  
I love you so much  
'Cause you make me feel so good

Someday  
Ooh, I dream that someday  
All the troubling things  
Will be out of our way  
And I know  
Our time together's been short  
Just believe what I say  
You remain in my heart  
There you stay

You make me feel so good  
Make me feel better than I thought I could  
I hope that it's understood  
I love you so much  
'Cause you make me feel so good

You make me feel so good  
Make me feel better than I thought I could  
I hope that it's understood  
I love you so much  
'Cause you make me feel so...

You make me feel so good  
Make me feel better than I thought I could  
I hope that it's understood  
I love you so much  
'Cause you make me feel so...  
Love you so much  
'Cause you make me feel so...

You make me feel so good  
Make me feel better than I thought I could  
I hope that it's understood  
I love you so much  
'Cause you make me feel so...  
Love you so much  
'Cause you make me feel so...  
Love you so much  
'Cause you make me feel so good
