Title: Fight to win

download from: <http://www.lyricsdisc.com>

Remember times, when you were young
You had to fight for your right to get out.
Remember times, when you were young
and nobody knew who you are

So take your chance and reach out for the stars
And everyone will be with you
And everyone will know you're number one

Come on and fight, fight to win
Make a dream come true
It's all up to you
So fight, fight to win
Hold your head up high
Together we stand by your side

Now you are here, it's time to go
And you will give all the best you can give
Now you are here, it's time to go
And together we stand by your side.

So please believe in your way of life,
Together we can reach the top,
Together we can be the number one

Come on and fight, fight to win
Make a dream come true
It's all up to you
So fight, fight to win
Hold your head up high
Together we stand by your side

So I fight, fight to win
Make a dream come true
It's all up to you
So fight, fight to win
Hold your head up high
Together we stand by your side

We are by your side
