

We're nowhere in particular  
We're nowhere, nowhere at all  
So fill my cup, make me happen  
Fill it up, make me smile  
Fill my cup, give me a reason  
A reason to feel alright

Don't you worry, sweet darling  
It's gonna be alright  
It seems that I've been sleeping  
Been sleeping all my life  
Been sleeping all my life  
Been sleeping all my life

I sleep alone  
On my very own  
Sitting sick at home

Baby, up, make me happen  
Wake me up, make me fly  
Weigh me up, give me the reason  
The reason to feel alright

Don't you worry, sweet darling  
It's gonna be alright  
It seems that I've been sleeping  
Been sleeping all my life  
Been sleeping all my life

Picking up girls and diseases  
That burn me up, burn me up

Been sleeping all my life  
Fill my cup, make me happen  
Fill my cup, make me smile
