

You bite the tin foil they give you
Your P.N.O.Y. mind is entombed
You are amused by your confusion
Staple your face to mine if you're afraid to be alone
I'll mail you razor blades for Christmas
If you're so disgusted then leave the wicked way
You are confused by your amusement
The hypocrite will be the first to see the filth
You want to look like me
(You want to look like) (repeat several times)

It's not the same, you don't mean a thing,
you're just another stain (2x)

This won't hurt..
You should eat the shit you speak
You know you are what you think
You should eat the shit you speak
You know you are what you think

Don't you try to touch me
You're no different from what you see
Don't you try to touch me
You're just as filthy as filth can be
Like a pinata you crack open
Your candy guts cascade in rainbow
You decay in your own containment
the sweetest insides are all coated with their filth

It's not the same, you don't mean a thing,
you're just another stain (2x)

You should eat the shit you speak
You know you are what you think
You should eat the shit you speak
You know you are what you think

Don't you try to touch me
You're no different from what you see
Don't you try to touch me
You're just as filthy as filth can be
