

things are good, nothing much for me to say
feeling happier everyday
things are good, i've got a simple mind
it seems like everything is going fine
fine and good
everything is fine and good
everything is running smooth this week
i don't even really feel the need to speak
but things are good, didn't mean to make you mad
people seem to like when things are bad
things are good
everything is fine and good
is that too much to ask to be this way?
i don't think i'm asking to much
is that too much to ask to be this way?
i really can't stress it enough
there you are, everything is fine and good
there you are, everything is fine and good
it's fine and good
everything is fine and good
is that too much to ask to be this way?
i don't think i'm asking too much
is that too much to ask to be this way?
or do you think i'm asking too much?
is that too much to ask to be this way?
i don't think i'm asking too much
don't confuse the issue
or take contention when you are
i really can't stress it enough
there you are, everything is fine and good
its fine and good
