

(M. Malamet/A. Roboff/A. lang/D. Lambert)

So, near yet so far  
That's how it is  
Oh, that's how you are  
What more can I do?  
These walls won't let me get through  
But if I know you, you will

Chorus:  
Finish what you started  
You'll come back to me  
I know it's gonna feel, baby  
Like it used to be  
So finish what you started  
I will wait for you

I know where I stand  
A fool for your love  
Oh, that's what I am  
I'm losin' control  
You're down too deep in my soul  
To let you go, won't ya

(Repeat Chorus)

I'm standing here shakin'  
Wonderin' if you let me in  
Oh, don't watch my heart breakin'  
Knowing what we could have been  
What more can I do?  
Your heart just won't let me through

But if I know you (Finish what you started)  
And I think I know you, baby (Finish what you started)  
And you can really show me if  
You finish what you started  
You'll come back to me  
I know it's gonna feel, baby  
Like it used to be  
So finish what you started  
I will wait for you  
I will wait for you (Ahh)

Finish what you started  
I'm gonna wait for you  
Finish what you started  
Don't you keep me waitin' (ohhh)  
Finish what you started (ohhh)  
Finish what you started  
You'll come back to me  
I know it's gonna feel baby  
Like it used to be  
So finish what you started  
I will wait for you
