Title: Fire and water

download from: <http://www.lyricsdisc.com>

Every single day, mama
I got a heartache comin' my way
I don't wanna say good-bye, baby
But look at the tears in my eyes
I don't wanna say good-bye, baby
But look at the way you made me cry

And everywhere is nice
You show you got a heart that's made of ice
And I know

Fire and water must have made ya their daughter
You got what it takes
To make a poor man's heart break

Lover, you turn me on
Uh, but quick as a flash your love is gone
Baby, I gotta leave you now
But I'm gonna try and make you grieve somehow

Fire and water must have made ya their daughter
Depraved, you got what it takes
To make this old heart of mine break

Lover, you turn me on
But quick as a flash your love is gone
Baby, I got to leave you now
But I'm gonna try and make you grieve somehow

Fire and water must have made you their daughter
You got what it takes
To make this poor heart of mine break

Fire and water must have made you their daughter
Babe, you got what it takes
To make this poor heart of mine break
