Title: Fire Away (live)

download from: <http://www.lyricsdisc.com>

so fire away.. just fire away .. so anyway, so fire away.
how deep can i just cut away? until i hit something of importance?.. would you feel it anyway?
what doesn't kill me leaves me cold enough to shape and shave away this frozen heart.. would i need it anyway?
if only you were me and i was someone who could relay this back to us.
so fire away.. just fire away .. so anyway, so fire away.
just fire away.
