Title: Firedancers

download from: <http://www.lyricsdisc.com>

Here come the fire dancers
Work so hard, feet surrender
You find it in the gold
We go down while you sleep

Chorus:
Hiding in the gold
We come for you
We adore you
We above you
And inside you

Run to see the wheel of fortune
To see three ____, face the center
And hiding in the gold
____, nothing in the center

Chorus

Find him in the gold
That and water
Find him in the gold
Without a warning
Find him in the gold
And in the water
