

They search They lied  
This place the face of the fearless  
To wait The night  
It's gone but you're starting to hear this  
It moves So fast  
Stopped hearts but holding on faster  
Come back Like that  
And you know that

(Chorus)  
You will find  
That I'm everywhere you go  
And I'm all the places you will not be  
You will find  
That I'm everywhere you go  
And I'm all the things that you wanna be

He leaves This light  
This sparkle's broken inside you  
I swear It hides  
Inside it's moving it's way thru  
The ways We hear  
The fall of the wind & the whispers  
The take So clear  
And you know that

You will find  
That I'm everywhere you go  
And I'm all the places you will not be  
You will find  
That I'm everywhere you go  
And I'm all the things that you wanna be

Constantly moving  
Your heart is just wasting away  
Endlessly waiting  
Your life is just slipping away...

You will find  
That I'm everywhere you go  
And I'm all the places you will not be  
You will find  
That I'm everywhere you go  
And I'm all the things that you wanna be  
You will find  
That I'm everywhere you go  
All the things that you wanna be  
You will find  
I'm everywhere you go  
And I'm all the things that you wanna be
