Hey Mr. DJ, in case you forgot,
I came to get down so you better make it hot
Cause I can't jump around when I hear groove killers
When I'm out sitting down, it's a clear time stealer

Give me a track with a Phat kind of beat
A groove so unique that it kicks me out my seat
Cause I won't find a mood with a new spine chiller
When the crowd leaves the room, it's a true crowd thriller

Freeze, better make it hot
Music please, blow the spot
Play that funky music

That is how we want it
Floorfiller
That is how we need it
Floorfiller
Something's out of order, people in the corners
Don't you see it
Can't you feel it

Floorfiller

Crank up a bass that can raise up the roof
A bomb diggy drum comin at me with a poof
Gotta boom, shake the room, cause we're all heat seekers
With a jam that can slam down the walls, mind freaker

Freeze, better make it hot
Music please, blow the spot
Play that funky music

That is how we want it
Floorfiller
That is how we need it
Floorfiller
Something's outta order, people in the corners
Don't you see it
Can't you feel it
(pause)

You'll know by the signs when the crowd is getting wild
Hands swinging high like a chopper in the sky
But a slow-bumping flow ain't the way, floorfreezer
See the name of the game is to play, crowd pleaser

Freeze, better make it hot
Music please, blow the spot
Play that funky music

That is how we want it
Floorfiller
That is how we need it

Something's outta order, people in the corners
Don't you see it
