

Fluorescent
(featuring Angelo Moore)

I'm not sayin nothin you don't already know
You know you're too delicious
More than I can handle
Lyin around late at night
So luscious that I ache
Baby why'd you fall asleep
I'm still awake

[Chorus]
I'm in love (uh, uh)
In love with a dream
My valentines kinda broke my wings
I see in time, I seem to be weak
You better be right, cause you promised me

I must have lost my mind
I can't believe you're still inside my bed
I nearly walked away
I didn't think we'd still be rollin

Dressin up in your love is a dangerous thing
My sexy, super lover has a real bad sting
Baby I don't want no trouble
This is more than I can afford
I can't help myself keep coming back for more
For more, can't help coming back for more
[Chorus]

I must have lost my mind
I can't believe you're still inside my bed
I nearly walked away
I didn't think we'd still be rollin
And as I watch you sleepin, lookin bright
I close my eyes and pray
Another fluorescent night
Yeah, you and I

Late night lovers
Kickin in the covers
Don't need no one but you and I
Cause every day's a weekend
Forget what we were thinking
Another sweet fluorescent night.

I must have lost my mind
I can't believe you're still inside my bed
I nearly walked away
I didn't think we'd still be rollin
And as I watch you sleepin, lookin bright
I close my eyes and pray
Another fluorescent night
Yeah, you and I.
