---

Me, you, we'll go flying away  
I'm gone take you little higher babe, go flying away  
Where the sun is wet and the rainbow's fire, flying away  
Unto another star, where our minds and our hearts will find a way

Baby here's your only chance, call me your sunshine, on a rainy day  
Love is on the way  
Don't you worry 'bout nothing at all  
If you really need a friend it's me you can call  
I won't bring you down  
We'll fly high above the ground  
Me and you

Me, you, we'll go flying away  
I'm gone take you little higher babe, go flying away  
Where the sun is wet and the rainbow's fire, flying away  
Unto another star, where our minds and our hearts will find a way  
(repeat)
