

Cry,if that's the way you feel
Let it all come fallin' down
We all know that you feel alone
Foolish child

Cry, if that's the way you feel
All your tears won't wash you clean
We can't feel the pain you feel
Foolish child

Die, that's the easy way for you
See if anyone really cares
What's so bad about the life you have
Foolish chid

Die, leave your message on the phone
How much love do you you need
We all know how the story goes
Foolish child

Why, did you let it come to this
Another number on a list
What becomes of all the hearts you've won
Foolish child

We can't feel the way you feel
All your tears can't wash you clean
Cry if that's the way you feel
My foolish child
My foolish child
My foolish child
My foolish child

We can't feel the way you feel
All your tears won't wash you clean
Cry if that's the way you feel
My foolish child
My foolish child
My foolish child
My foolish child
