Celph:

These hungry rappers battle for a buck and some change

There really be kids starving

give a fuck if it change

Shok rap

Not that

You get signed you might blow up

Realisa "Party In Iraq"

You might blow up

I see you trying to think a few lines you might get at me with

Slap happy with babies who're born with crack in they cribs

Too much to cram under your oversized fitted

And the public system failed you

Eighter you're ignorator...
