Title: From Hell & Back

download from: <http://www.lyricsdisc.com>

No turning back no bowing down
The past has served us well

Grow that hair drink that beer
Live without remorse or fear

From hell & back
We carve ourselves a name
Cause this is more than music
A lifestyle to the grave

No turning back no bowing down
The past has served us well

From hell & back
From hell & back

From hell & back
We carve ourselves a name
Cause this is more than music
A lifestyle to the grave
