

No don't hate me, this galaxy can't stop me (?)
Right now you can do it!

We can't stop let's take a ride
In the galaxy we run aside

Goodbye to the crazy world
They're gonna take me to the stars
Isn't life more (than) just a tragedy
Just a price they cannot pay (???)

Right now you can do it!
No don't hate me, this galaxy can't stop me (?)

Right now
Goodbye to the crazy world
They're gonna leave you for the stars
Where's my life? Just a copy
As curiosity for you

No matter what they've done on you
There is no world for me and you
So set me free, I'll take the ride
In the galaxy we run aside

Right now you can do it!
No don't hate me, this galaxy can't stop me (?)

We can't stop let's take a ride
In the galaxy we run aside

Right now you can do it!
No don't hate me, this galaxy can't stop me (?)
