Title: Get Off

---

Take a deep breath right away  
And say what you want to say  
I'm waiting  
Is it me, is it you  
Is it wrong, or is it true  
I'm thinking  
It's like a rats race for me to live  
You never know how life is  
I'm fading  
There's nothing left for me to lose  
Lights are off 'coz I chose my own way of thinking

Chorus:

Get off, get off  
I know I'll find my own way

It's getting colder every day  
Still don't know what to say  
I'm freezing  
Confidence is what they call a good thing  
I don't think so  
They are lying  
When you really need someone they're all gone at once  
Stop searching  
Love is a losers game my friend  
You have got no-one in the end  
In the bitter, bitter, bitter end

Chorus (repeat)
