Title: Get Ready

download from: <http://www.lyricsdisc.com>

I know the storm is coming there are clouds up ahead
You can't keep running you better face the clouds instead
When the storm winds blow don't you cover and hide
You've got to let go of the demons you're keeping inside
There's no shelter from your pain

Chorus:
So get ready for the rain
Get ready for the rain

Now you can't change the weather though you've tried to for years
But the rain is coming and there's no way to hold back the tears
Too late to say you're sorry you'll have to take the blame
But the water is rising and it won't wash your problems away
There's no shelter from your pain
