

Gimme your love - gimme your love in the morning
Gimme your love - just gimme a piece of your heart
When you're away from me I'm yearning
For more than little moments in love

Gimme your heart - gimme your love 'cause I'm dying
Don't give me heartaches - gimme just all of your love
And I will love you like no other
And I'm dreaming you're telling me to stay

All that I can see is a smiling in your eyes
And I know you can feel how I feel
Don't be ashamed
Let's break the chain
I know that we want the same thing ...

Oh gimme your love - gimme your love every hour
Just gimme a little piece of your heart every day
Nobody ever kissed me better
And I want you oh I need you to stay

Just - gimme your love - oh gimme your love when I'm dreaming
Send me your love when I'm lightyears away
And I'll be coming back to you forever
For more than just moments in love

All that I can see is a smiling in your eyes
And I know you can feel how I feel
Don't be ashamed
Let's break the chain
I know that we want the same thing ...
