

No fun in hanging around here all day
Seems like I'm pissing all over my leg
Walkin the plank, Watching the sharks as they swim waiting for dinner
Your gravity's defeating me
Sadness and beauty are one in the same
Now I'm drawing the line in the sand, over and over

Don't you feel the same way
I need to reciprocate
All those things that I have learned, have learned

Storms in my head, they are brewing today
Too much resistance will soon break the gauge
Suck into space, notice the lack O2
Something's not right here
Your gravity's, Your gravity's defeating me
Sadness and beauty are one in the same
Now I'm chasing salvation again, over and over

Don't you feel the same way
I need to reciprocate
All those things that I have learned, have learned

Don't you feel the same way
I need to reciprocate
All those things that I have learned, have learned

Don't you feel the same way
I need to regurgitate
All those things that I have learned, have learned
