Title: Heart of silence

download from: <http://www.lyricsdisc.com>

Walls without a story
People filled with hate
Keep away from my room
Don't let me see your fate

Calm down and respect your dream

You can't break this heart of silence
Waiting is a bore
You can break this heart of silence
Close your eyes and lock the door

Restless people movin'
To flames of burning streets
But never trust a hippy
With a psychotronic beat
