

Ooh soft as velvet, sweeter than wine  
Hot blooded prime grade a  
Oh lust me tough me sweet little child  
This little girl has come of age

She's sweet as virgin clover she's my baby love doll  
Erotic kind of candy she melts in your mouth  
Every young boy's dream she's miss everything  
She's a killer queen she's got the kiss of fire

[Chorus]

Heavy pettin' she taught me everything  
Heavy pettin' mother nature's wild child  
Heavy pettin' she's my little passion queen  
Heavy pettin' walking on the wild side

Ooh, she'll lick your wounds and swallow your pride  
Show you worlds you've never seen  
Oh love you to ruin, leave you on cloud nine  
Higher than you've ever been

Her love is sheer perfection only one of a kind  
She's the ultimate connection she'll blow your mind  
She'll grant all of your dreams - wishes guaranteed  
In every joy of heaven that she brings

[Chorus]

She gives the right amount of pleasure  
She blisters my love zone  
Under hundred tons of pressure oh  
Ready to blow baby bring it on home

[Chorus]
