

my blood is really boiling  
and I've got fire in my eyes  
there is no compromising

and all systems are go  
he's going to pay the price  
with all four of his eyes

I just hit a guy with glasses!!  
would you hit a guy with glasses?!!

will someone please explain to me  
who made that wacky rule  
if you hit a guy with glasses  
you won't look very cool

the science club is pissed  
and they are after me  
they want compensation for the optometry
