

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby be my holy man

Flames in the Garden of Eden  
Heaven in pieces at my feet  
I faced the raging ruin  
Of a million sleepless nights  
I need to rest my weary head  
On your resurrection bed

Storms across the horizon  
Whirlwind tuggin' at my sleeve  
Just when my heart was turning  
To an icy shade of blue  
You came into the night  
Held me so close  
How the hell ya found me  
God only knows

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby be my holy man

Lies in the Valley of Evil  
Like shadows fallin' 'cross my eyes  
When there's no sanctuary  
You came and turned the storms away  
You made the darkest night in my life  
Into Judgement Day

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby be my holy man

I see forever in your eyes  
For your love  
I would make any sacrifice, yeah

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby be my holy man

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby be my holy man

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby be my holy man

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby be my holy man
