

ooh, ooh, honey got me hooked on you

Honey, You can have me when you want me
You just simply ask me to be there
And you're the only one who makes me come running
Cause what you got is far beyond compare

And its just like honey
When your love comes over me
Oh baby, I've got a dependency
Always strung out for another taste of your honey

Chorus

It's like honey when it washes over me
You know sugar never ever was so sweet
And I'm dyin for ya, cryin for ya, I adore ya
One hit of your love addicted me
Now I'm strung out on you darlin'
Don't you see every night and day
I cant hardly wait for another taste of honey

Honey I can't describe
How good it feels inside
Honey I can't describe
How good it feels inside

I can't be elusive with you Honey
Cause it's blatant that I'm feeling you
And it's too hard for me to leave abruptly
Cause you're the only thing I wanna do

And it's just like Honey
When your love comes over me
Oh baby, I've got dependency
Always strung out for another
Taste of your honey

Chorus

It's like honey when it washes over me
You know sugar never ever was so sweet
And I'm dyin for ya, cryin for ya, I adore ya
One hit of your love addicted me
Now I'm strung out on you darlin'
Don't you see every night and day
I cant hardly wait for another taste of honey

baby i can hardly wait
gotta have another taste

whoa whoa every little thing you do
whoa whoa honey got me hooked on you

Chorus(x3)

It's like honey when it washes over me
You know sugar never ever was so sweet
And I'm dyin for ya, cryin for ya, I adore ya
One hit of your love addicted me
Now I'm strung out on you darlin'
Don't you see every night and day
I cant hardly wait for another taste of honey
