Title: Hot Blood

download from: <http://www.lyricsdisc.com>

with hand to mouth its hard to speak
never wanted ?
did you ever ?
i never understand
feeling like its this or that and someone else is bound to crack
at the summers inn i never understand
i got it cold never old
cant you mix it with your hot blood
summer sheets it never beats
cant you mix it with your hot blood
somehow the sun has taken hold and all the black is turning gold
does it ever feel?
im not afraid to feel
swimming in this pool of sand
swear you found a sturdy band
all the good is bad and im my biggest fan
got it cold never old cant you mix it w/ your hot blood
summer sheets it never beats cant you mix it with your hot blood
with hand to mouth its hard to speak
now you ?
just keep wishing it
i always understand
feeling like its this or that and someone else is bound to crack
at the summers inn
i never understand
i got it cold never old cant you mix it with your hot blood
summer sheets and nothing beats cant you mix it with your hot blood
at the summers inn (X6)
