

I thought I left, long recall  
I wanted to ask you  
You use to hug and there was no feeling beyond that  
Do you remember back in the days  
We use to laugh & play all night long  
And if you do (If you do)  
Tell me (Tell me) how long, how long

{Chorus}  
How long do you need time away  
Hopefully not long  
You'll stay away  
And I pray that everything's okay  
Tell me I wanna know how long  
How long will you  
You'll be away

Now it hurts me so  
Thinking about her  
At night my bed is cold  
And lonely without her  
Can't explain what heaven knows  
I'm crazy about her  
If she come back she don't know  
I said she really really don't know  
So please my lady, just how long  
{Chorus}

You'll be away  
[Ad libs throughout]  
I miss you so (I miss you so)  
I miss you so (I miss you so)  
I miss you so (I miss you so)  
I miss you so (I miss you so)  
Coming back someday  
Coming back someday  
Coming back someday  
Coming back oneday  
Coming back oneday  
Coming back oneday  
{Chorus}
