Title: I live for your love

download from: <http://www.lyricsdisc.com>

Stand up
Stand on your own
That's what they tell me
You can make it alone
But where does it say I have to move
Far away from you to prove I'm strong
Oh when all it really proves
Is I'm lonely without you
And loneliness has to be wrong
I live for your love
(Every day - every minute)
I live for your love
(Got one life - want you in it)
I live for your love
(I admit it)
I live for your love
I wake up
With no one to kiss
Sometimes I wonder
If I just exist
I know I've got people I could see
Places I could be and friends who call
Oh but what good does it do There's no substitute for you I want you or nothing at all
I live for your love
And your kisses
And oh how I'm missin'
Your sweet tender touch
I need you so much I just can't go on anymore
What I wouldn't give for, cause darling
PLAM.
