

It's catching up to me right now
Everything that I have said
The night I left her there
When I said I want you out
I was angry and upset
At that time I couldn't care less
About her standing there
I had to prove I didn't care
As much as she thought I did

I showed her
I let my pride take me
Far away from the only woman I loved
I showed her
And now she has found someone new
And her life will go on
And I'm all alone
I showed her

I hear that she's in love
But it took a while for her
to get over the hurt
Now I know that I messed up
I was trying to give us time
But i see, she took that time
to find somebody else
What happened to the things she felt
For me, am I really a part of her past

I showed her
I let my pride take me
Far away from the only woman I loved
I showed her
And now she has found someone new
And her life will go on
And I'm all alone
I showed her

(oohs)

I showed her
I let my pride take me
Far away from the only woman I loved
I showed her
And now she has found someone new
And her life will go on
And I'm all alone
I showed her

I showed her
Now she has found someone new
And her life will go on
And I'm all alone
I showed her

I showed her
I showed her
