

words & music by Vonda Shepard & Gardner Cole

Since I met you, I've missed you all my life  
What I don't know won't hurt me baby  
Since I've known you, I can recall the old times

Wasn't that your face in my old photographs  
Didn't we laugh and talk for hours baby  
Really wanna see you but baby

(Chorus)

I shy away from your love  
Don't you know what I'm going through  
I shy away from your love  
I should be loving you but I just shy away

I don't ask you about the girls in your life  
'Cause what I don't know might hurt me baby  
I don't question when something feels right

Always waiting for the right one  
You say I should take my chances darlin'  
I could fall in love with you but baby

(Chorus)

I shy away from your love  
Don't you know what I'm going through  
I shy away from your love  
I should be loving you...

(Bridge)

I really wanna share the love  
Share the love to share to love  
I really wanna share the love  
Share the love to share the love  
Share the love

Always waiting for the right one  
You say I should take my chances darlin'  
I could really fall in love with you but baby

(Chorus)

I shy away from your love  
Don't you know what I'm going through  
(I don't you know what I'm going through)  
Baby I shy away from your love  
I should be loving you but I just shy away

(Chorus)
