Title: I'll kill you if you don't come back

download from: <http://www.lyricsdisc.com>

From the minute I turned and laid my eyes on you
I had no eyes of my own
I was blind to the world - you were too good to be true
But you were something to see - so very young and alone

And I still don't believe the way you turned on me
Now where's the girl that I knew?
I gave you somewhere to live and then somebody to love
You gave me nothing but trouble - man I've been such a fool
You gave me nothing at all - now let me give it to you
You taught me how to be cruel - now let me try it on you

How do you abuse me - let me count the ways
How many hours in how many days
How does it amuse you - let me count the pain
How many rules breaking how many games
How do you abuse me - let me count the ways
How many hours in how many days
How does it amuse you - let me count the pain
How many rules breaking how many games

You got your ass out of gear and your soul out of whack
Go on and take all your stuff - don't even bother to pack
In every way I want you out of my life -
But I'll kill you if you don't come back
