---

When you touch me  
I feel there's nothing you can do to turn me away  
And I know that  
In the past you've had bad luck so I should help you stay

You're all I ever wanted  
You're all I ever needed, it's you  
You're all I've ever wanted  
And loving you's the right thing to do  
And I'll see it through

When I close my eyes  
And think of you it takes me places that I've never seen  
And the rain, it blows  
You're brushing up against my skin to wash me clean

You're all I ever wanted  
You're all I ever needed - it's you  
You're all I've ever wanted  
And loving you's the right thing to do  
And I'll see it through

I'll show you the love in my head  
I'll show you the love that we had  
I'll show you the love in my head  
I'll show you the love that we had

You're all I ever wanted  
You're all I've ever needed, it's you  
You're all I've ever wanted  
And loving you's the right thing to do

You're all I ever wanted  
You're all I've ever needed, it's you  
You're all I've ever wanted  
And loving you's the right thing to do  
And I'll see it through
