Title: Illusions

Don't believe in me
My lies are all you see
Don't hold my hands
Why did I begin?
This story and this dream?
It will end so badly
You can't know about this confusion
Bring me to reality
There are visions in my head
I know our lives are illusions
Can't you understand?
I know our lives are illusions
There's no time
No more time for these illusions
Innocent you are
My conscience is lost
May be my time is passing by
When I see you I die
I betray you now
I will give my life to you
An easy way to self destruction
My mistakes will bring me down
I can't keep the insanity
I know our lives are illusions
Can't you understand?
I know our lives are illusions
There's no time No more time for these illusions
