Title: I'm not afraid

download from: <http://www.lyricsdisc.com>

I don't want a second chance
now that's exactly where I am
back where I didn't want to be
back where I knew you'd find me out
I've never been afraid of you
I never will admit the truth
I know there's something I can do
I'm not afraid to face myself
but is it me or something else
makes me exactly what I am
that's something I will always doubt
