feat. JD

See, ya'll wanna dance? (yeah yeah)  
Cuz I'mma make you dance (uh huh)  
All I want is for you to use your imagination (come on)

That's all  
Come on  
Come on

1 - What makes us do  
The things we do  
That keeps me lovin' you (imagination)  
And when you're in need  
Ain't got nobody  
Imagination sets you free, free

Everything you want is real close  
When you close your eyes  
And the things you think about the most  
They come to life (come to life)  
When your relationship is headed for the rocks  
Gotta use your imagination to get you back on top

Repeat 1

It's the place you look  
When you want to have some fun  
When you see it, say it, before it's done (uh huh)  
Imagine you and me, and how it would feel  
Exploring new ideas and what's gon' keep this lovin' real

When you get lonely (lonely)  
It'll make you get to a phone and  
Tell me how much you want me  
And when you have a bad day  
A little bit of imagination goes a long way

[JD]

Oh, true buff playa, that's the Chichi  
Wanna get up out the store, you need to see me  
Now I got you wondering what's behind the slouch  
If you get too close will you get turned out  
No doubt, it won't be the same if I hit it  
Cuz you always gon' want it the way I did it  
I'mma keep you fresh, make sure you stay kitted  
See once I got it, can't nobody else get it  
From the bottom to the top  
'Till you say stop  
You and me, wit the freaky South, I'mma gray drop  
I'll kiss everything, I don't miss a spot  
Stuff you ain't never seen from the man you got  
I ain't hatin', my imagination's just more advanced  
So when you wanna dance, I'mma make you dance  
Tamia I see ya, I'm still waiting  
You make me wanna, leave that to your imagination  
Yeah, yeah

Repeat 1

Repeat 1 while:  
Go 'head, baby, go 'head, baby
