Title: In my dreams

---

Pull back the sheets and crawl into my bed  
I can't wait to drift away  
I feel the clock it's ticking in my head  
I close my eyes and start to fade

I hear her voices call me  
Her breath is all I breathe  
Her touch is all I want  
In my dreams, in my dreams

Chorus  
I can have it all, everything I need  
She's the only one in my dreams  
She's everything I want  
As long as I'm asleep  
I can live inside of my dreams

I feel the sun is shining on my face  
And I'm counting down the hours  
I close my eyes I'm in my favourite place  
I'm so glad that I've found her

Chorus

She's all I need in my dreams  
She's all I see in my dreams  
Her breath is all I breathe

Chorus
