

With the smile of an angel
You walked into my heart
I took one look at you and
I felt it from the start
We're almost meant to be and
I know that you care for me
Lets not rush the time
You know im yours and i know your mine

Cuz i want something real and
I want it to be true
Dont you say the words i love you
I love the way you feel and
I love the things you do
But i cant say that i love you too

[chorus]
You and me, we can make it be
If we just give it some time
You know me so
I know you can see that
The love is in my eyes

Words are so fake dont make the mistake
Of letting yu heart break
Eyes cant disguise when they're sad they cry when they lie they're shy
Dont tell me how you feel
Just show me how you do
I'll make it so you cant mistake it
I feel the same way too

Cuz we got time to spend
Its not the end so dont you pretend
With words like i love you

[chorus]
You and me, we can make it be
If we just give it some time
You know me so
I know you can see that
The love is in my eyes

And i know in time we could have that
Title that makes you mine
But i dont need that cuz i ccan see that
Its in your eyes

[chorus]
You and me, we can make it be
If we just give it some time
You know me so
I know you can see that
The love is in my eyes

[chorus]
You and me, we can make it be
If we just give it some time
You know me so
I know you can see that
The love is in my eyes
