

In my eyes you'll see
The way it is to be
Take a look and see
The light still shines in me

In my eyes
In my eyes you'll see
The way it is to be
Take a look and see
The light still shines in me

There's a part of me
That I forgot to be
Take a look and see
The light still shines in me

Take a look and see
The light still shines in me
Take a look and see
The light still shines in me

In my eyes
In my eyes

In your arms it seems
You've taken all my dreams
Take a look and see
The light still shines in me

There's a part of me
That I forgot to be
Take a look and see
The light still shines in me

In my eyes, in my eyes
The light still shines in me

In my eyes, in my eyes
The light still shines in me

In my eyes
In my eyes

Take a look and see
The light still shines in me
Take a look and see
The light still shines in me

In my eyes
In my eyes

Take a look and see
The light still shines in me
Take a look and see
The light still shines in me

In my eyes you'll see
The way it is to be
Take a look and see
The light still shines in me
