

Through these eyes I've seen so much of pain  
And through these eyes I've seen blood staining the rain  
Written in the prophecy is my name  
If you wanna follow me  
It's not all game

(In my name)  
Shall I come back again  
(In my name)  
Shall I come back in the end

In these times of war and fame  
And in these times love goes down the drain  
Written in the prophecy is the name  
Somebody comes for you and me  
It's not all game

(In my name)  
Shall you cast out devils  
(In my name)  
Shall you take up serpents  
(In my name)  
Shall you speak with new tongues  
(In my name)  
Shall you be forgiven  
In this world  
In this ol' world  
In this world  
The road is my name

(In my name)  
Shall you cast out devils  
(In my name)  
Shall you take up serpents  
(In my name)  
Shall you speak with new tongues  
(In my name)  
Shall you be forgiven  
In my name
