Title: In the rain again

download from: <http://www.lyricsdisc.com>

Running through your life
Can you see the wrong from right
Can you understand
You take my breath away
Love has lost and found
Many smiles
And many frowns
But I find you
When the rain
Comes falling down
What can I do
When our love's run away
How can I have you
When you're crying in the rain

In the rain again
Call my name, I'll be there
Can you take my hand
And give my love a try
In the rain again
Why the pain
Don't you care
Can you take a chance
You know my love is blind
Now you've lost your smile
In the rain again
In the rain again

How can I explain
You don't have to be afraid
When you're feeling down
I'm not so far away
Now you know I care
I'll be with you
Everywhere
I don't wanna see you
Standing there alone
What can I do
When our love's run away
How can I have you
When you're crying in the rain
