

It's getting complicated
I'm finding it difficult to go
Can't stop the walls from caving in on me
And I'm still finding out

Only if you understood
You would see you'd know by now
Things aren't quite so good
Why can't you understand me

Only if I could find it
Seems miles away
Only if I could have it
My independence day

It's funny how we always end
A stalemate on and on and on
Can't put the past behind me
You're still talking nonsensical

Only if we understood
Each other you'd know by now
Oh how I wish you could
Why can't you understand it

Only if I could find it
Seems miles away
Only if I could have it
My independence day
