

Artist: disbelief

Title: Infected

download from: <http://www.lyricsdisc.com>

try to go, why do you have to go? now, tears will try, try to follow
now the way to the feelings, they turn around me, check life...

give me another... another chance for a new life
give me another... another chance - I'll be blind

I am the man who waits for you - follow me
life is always extreme, my life round about me

life is always extreme, life will kill - I'll rape, give me another...

infected

I'm a psychotic monster, I'll kill - I'll rape, I try to become addicted to
love

infected

I don't mind - this is my dream, I don't care - this is my dream

I am the man who waits for you - follow me
life is always extreme, my life round about me

life is always extreme, life will kill - I'll rape, try to fall in love
again

infected

I'm a psychotic monster, I'll kill - I'll rape, try to fall in love again

infected

I don't mind - this is my dream, I don't care - this is my dream

infected

life don't kill me, no way - don't wake me up, life don't kill me

infected
