Title: Innocent mind

download from: <http://www.lyricsdisc.com>

Mass force feeding, you can't find what you're needing out there
And you'll be flying high all evening, but morning leaves you feeling despair
But your innocent mind still cares
Yes, your innocent mind's still there
Follow what you're feeling, and you'll get there
Now your family is crying, it seems you gave up trying to care
And now you're deep in your confusion, and words to give them comfort aren't there
But your innocent mind still cares
If you look you will find it there
They don't know nothing, no they don't
They don't know nothing, they can't help
This world in all its madness has got you always running away
And you can fall into oblivion now till you can face yourself one day
But your innocent mind's still there
Yes but your innocent mind still cares
They don't know nothing, no they don't
They don't know nothing, they can't help
