

Yeah let's tear this mother fucker down

Costumed clowns are fed their sound
Produced and drowned
By their own endorsements
Every trend is commodified
We won't subscribe
Hipness it all dies

This is our sonic salvation
Suck off your own validation
You just wait and see
This is a revolution baby yeah
Let's tear this mother fucker down
Down
Insurrection now
Let's tear this mother fucker down
Down
Insurrection now
It's insurrection yeah
It's insurrection now

Just want to be ourselves
Nothing else our oddity is the real thing
We won't be undermined or refined
Cause we're black inside

This is our sonic salvation
Suck off your own validation
You just wait and see
This is a revolution baby yeah
Let's tear this mother fucker down
Down
Insurrection now
Let's tear this mother fucker down
Down
Insurrection now
It's insurrection yeah
It's insurrection now

We don't want to act that way
Lets raise our fingers to the system
And even if tomorrow never came
We wouldn't care cause we're not to blame
We don't want to live the life you live
Or give a shit about the way it is
Lets raise our fingers to the system
Yeah raise your fingers

Let's tear this mother fucker down
Down
Insurrection now
Let's tear this mother fucker down
Down
Insurrection now
It's insurrection yeah
It's insurrection
