Title: Into the ice

download from: <http://www.lyricsdisc.com>

Love is the word I said a million times
Love, slow.
Love is the word I meant to say all the time
Love, gone.

God left my hand, I fell into the ice
There was nothin' there, I couldn't breath
I started to cry when you said goodbye
Your kindness sheltered my life from any harm

Love is the word you said a few times
Love, so far.
I never knew how was this love
Tough, love.

I'll never forget what took me out of bed
Made me sweat and will make me go back
I shut my eyes everytime it gets dark
Cause I hardly know, I hardly know what's

Love.
