---

Who's gonna shoe your pretty feet, who's gonna hold your hand  
Who's gonna take you out tonight, to listen to the band

Who'll be the one you love to love, who's gonna make you glow  
Who's gonna show you off tonight, when she takes you to the show

It'll be me, babe, it'll be me, comin' for thee, babe, comin' for thee  
In case there's any doubt, here's what I'm talkin' about  
It'll be me, babe, it'll be me

Who's gonna meet you in the morn, court you through the day  
Who's gonna be there by your side, when you rock the night away

It'll be me, babe, it'll be me, comin' for thee, babe, comin' for thee  
In case there's any doubt, here's what I'm talkin' about  
It'll be me, babe, it'll be me, comin' for thee, babe, comin' for thee  
In case there's any doubt, here's what I'm talkin' and talkin' about  
Me, babe, it'll be me

It'll be me, babe (repeats out)
