Title: It's a dream

download from: <http://www.lyricsdisc.com>

I remember the time of my life.
In the southern light I saw the dream in the sky.
Now you know all the things we can't hide.
I could tell you all of my dreams right from the start.

Go go let's go!

I remember the time of my life.
In the southern light I saw the dream in the sky.
Now you know all the things we can't hide.
I could tell you all of my dreams right from the start.

Check it out y'all!
Yo!
Yo yo yo party people!
I want to see all your hands up in the sky!

Yo!
Party people!
Yo!
Party people!

I remember the time of my life.
In the southern light I saw the dream in the sky.
Now you know all the things we can't hide.
I could tell you all of my dreams right from the start.

Check it out y'all!
Yo!
Yo yo yo party people!
I want to see all your hands up in the sky!
Check it out y'all!

Yo!
