

Artist: Lonestar

Title: It's as simple as that

---

Got us a situation  
It don't need no explanation  
It don't take a scientist  
To figure out just what this is

Unlike the changing seasons  
Love happens without reason

Chorus:

It's as simple as that  
Two people meet, it's destiny  
That they're together  
I knew when I met you  
That this would last forever  
And I can promise you  
That I will leave you never  
I'm happy right where I'm at  
It's as simple as that

It's how I feel when you call my name  
Holdin' hands in the pourin' rain  
A slow dance that never ends  
The sweet sound of a violin

And even when we're apart  
You beat around in my heart

Repeat 2x Chorus
