

(Don Barnes-Jim Peterik-Danny Chauncey)

If you think you can change the world...

World's runnin down  
And people ain't relating to each other anymore  
It's a different sound  
This ain't no time to disrespect our brothers  
Cause we're all in this together

And if our mission's to be true  
It's got to start with me and you...so

Go and chance it for the planet  
No time for, don't need war  
For our children, no more killin  
For all Man, take a stand  
If you think you can change the world  
Jam on!  
Together we can change the world...

It's a cryin' sound  
When intolerance and hatred break the silence in our soul  
Where tears soak the ground, a flower grows  
To prove that love's the power that still connects us all

And if confusion rules the day  
Just got to find a different way

Go and chance it for the planet  
No time for, don't need war  
For our children, no more killin  
For all Man, give a damn  
If you think you can change the world  
Jam on!  
Together we can change the world...

If we come together for one thing  
One cause, one song we can all sing  
If wounds can be healed with a joyful sound  
Jam On!
